

PARAG MOLICK

Mechanical Engineering Student

Email: paragmollick.mechanical@gmail.com | Location: Dhaka, Bangladesh

EDUCATION

B.Sc. in Mechanical Engineering

Ongoing / Expected Graduation: [Year]

- Focusing on core engineering principles, thermal fluids, and mechanical design.

ACADEMIC PROJECTS

Spiral Jaw Clutch Design Project

Machine Design Laboratory

- Designed and modeled the driven disk section of a Spiral Jaw Clutch.
- Performed engineering calculations to ensure mechanical integrity and correct engagement mechanics.

Fluid Dynamics & Nozzle Flow Experimentation

Fluid Mechanics Laboratory

- Analyzed axial pressure distribution and choked flow conditions within a convergent-divergent nozzle.
- Processed experimental data and formulated formal technical reports.

TECHNICAL SKILLS

CAD/Simulation: SolidWorks, Ansys

Core Focus: Fluid Mechanics, Machine Design, Mechanical Vibrations

General: Technical Reporting, Engineering Analysis, Academic Tutoring

EXPERIENCE & LEADERSHIP

Academic Mentor / Tutor

English Medium Curriculum (Grade 9)

- Assisting a Grade 9 student with Mathematics (Arithmetic Progression, Geometry).
- Tracking student progression and preparing structured practice assessment material.

INTERESTS

- Engineering Simulations and PC Hardware Optimization.
- Digital Layout Design and Visual Compositions.
- Traveling and exploring regional cultures.
