Location: Dhaka, Bangladesh

EDUCATION

B.Sc. in Mechanical Engineering | Bangladesh University of Engineering and Technology (BUET)

4th Year · Focus: Thermo-fluid Systems, CFD, Thermal Management · 2021 – Present

Higher Secondary Certificate (HSC) | Science Group · Jashore Education Board

Government Board Scholarship recipient · 2021

Secondary School Certificate (SSC) | Science Group · Jashore Education Board

Government Board Scholarship · Top merit position · 2019

EXPERIENCE

Industrial Attachment Trainee | Meghna Group of Industries (MGI)

- Hands-on exposure to large-scale industrial operations and mechanical maintenance.
- Observed real-world engineering applications, manufacturing processes, and safety protocols in one of Bangladesh's leading industrial conglomerates.

PROJECTS

AeroMark — FPV Drone-Based Wildlife Management System

ME 366 Course Project

Co-developed an FPV drone system for remote tranquilization of wild animals using a custom electromagnetic coil gun. System features stabilised targeting camera, ~10 min flight time, 1 km range, and manual FPV control.

Design and Optimisation of Spiral Jaw Clutch

Machine Design Project

Performed detailed geometric design, stress analysis, and optimisation of a spiral jaw clutch for industrial torque-transmission applications.

Radiator-Type Rear Door Heat Exchanger

Thermal Engineering Project

Designed and analysed a rear-door heat exchanger unit for data centre cooling, focusing on thermal resistance modelling and CFD-driven performance evaluation.

SKILLS

CAD / Simulation: SolidWorks (CSWA), ANSYS, MATLAB

Engineering: Thermo-fluid Systems, CFD, Heat Transfer, Machine Design

Programming: MATLAB, Python (basic)

Languages: Bengali (native), English (professional)

CERTIFICATIONS

- Certified SolidWorks Associate (CSWA)
- ANSYS Simulation Expert
- MATLAB Professional
